THERIOGENOLOGY

C O N T E N T S

Volume 9

Number 1, January 1978

Methods of producing twins in cattle

G.B. Anderson 3

Superovulation of cows with follicle stimulating hormone and pregnant mare's serum gonadotropin

R.P. Elsden, L.D. Nelson and G.E. Seidel, Jr. 17

Relationship of embryo sexing to other methods of prenatal sex determination in farm animals

W.C.D. Hare and K.J. Betteridge 27

Freezing mammalian embryos: A review of the techniques

R.R. Maurer 45

Non-surgical embryo transfer in the cow

J.M. Sreenan 69

Ovarian responses in the cow to pregnant mare's serum gonadotrophin and prostaglandin $F_{2\alpha}$

L.F. Archbald 85

Maternal progesterone levels as evidence of luteotrophic or antiluteolytic effects of embryos transferred to heifers 12-17 days after estrus

K.J. Betteridge, M.D. Eaglesome, G.C.B. Randall, D. Mitchell and E.A. Sugden 86

Factors affecting egg "quality" after superovulation in cattle

M.P. Boland, T.F. Crosby and I. Gordon 87

Interaction of viral pathogens with preimplantation embryos

R.A. Bowen, J. Storz and J. Leary 88

Library
Ohio Agricultural Research & Development Center
Wooster, Ohio 44691

48505

THERIOGENOLOGY

In vitro fertilization of cow ova

B.G. Brackett, Y.K. Oh, J.F. Evans and W.J. Donawick 89

Embryo transfer in lactating dairy cattle and factors affecting pregnancy rates

A. Brand 90

Fertilization rate of bovine sires

B. Callaghan and G.J. King 91

Induced oocyte maturation in heifers and ewes

W.D. Foote, C.D. Mills, B. Krishnaswamy and D.A. Phelps 92

A technique for continuous infusion of donor heifers with follicle stimulating hormone

R.A. Godke, A.B. Bercovitz, J.L. Kreider and W.R. Warren 93

Superovulation of the lactating dairy cow

J.F. Hasler 94

Luteal regression and abortion in recipient cows with prostaglandin analogue (ICI-80,966)

H. Ingraham, J.S. Kelley and R.A. Godke 95

Donor-recipient asynchrony, stage of embryo development and the post-transfer survival of bovine embryos

R.N. Kunkel and W.R. Stricklin 96

Timing of ovulations in the superovulated bovine

D.P. Maxwell, J.M. Massey and D.C. Kraemer 97

Non-surgical ovum recovery rates in cattle

L.D. Nelson, R.P. Elsden, L.G. Case and N.R. Homan 98

Detecting estrus in beef cattle with hormone-treated steers and heifers

S.H. Pool, A.F. Loyacano, S.D. Goodeaux and R.A. Godke 99

Some factors to consider when planning and analysing experiments concerning superovulation in cattle

J. Saumande, D. Chupin and J.C. Mariana 100

Recovery of bovine follicular oocytes and their fertilization in a recipient animal

B.F. Shea 101

Initiation of embryonic development by experimental mammalian oocyte fusion

P. Soupart, M.L. Anderson and J.E. Repp 102

Diagnosis of twin-pregnancy and subsequent calving results following bilateral egg transfer in beef heifers

J.M. Sreenan, J.P. Gosling, M. Terqui and J. Thimonier 103

Plasma steroid hormone levels from donor heifers on continuous follicle stimulating hormone infusion

W.R. Warren, J.L. Kreider and R.A. Godke 104

Presence of a non-cellular suprazonary layer in embryos collected from prepubertal calves

R.W. Wright, Jr., A.R. Menino and D.W. Mickelsen 105

Number 2, February 1978

Notices 107

Fetal and maternal endocrine changes associated with parturition in the goat

N.C. Rawlings and W.R. Ward 109

The effect of long-term administration of low oral doses of chlormadinone acetate on heat cycles and ovarian functions in beef heifers

W. Jöchle, M.A. Hidalgo and T. Gimenez 121

Effect of electrical stimulation or presence of a bull on puberty in beef heifers

J.G. Barardinelli, R.L. Fogwell and E.K. Inskeep 133

Hormonal control of serving capacity in bulls

M.A. deB. Blockey and D.B. Galloway 143

Inoculation of bulls with bovine virus diarrhea virus: Excretion of virus in semen and effects on semen quality

H.L. Whitmore, B.K. Gustafsson, P. Havarshti, A.B. Duchateau and E.C. Mather 153

34 87 82 OSU3 I 603 XL 2942

THERIOGENOLOGY

Incidence and ultrastructure of "crater" defect of bovine spermatozoa

G.H. Coulter, R.J. Oko and J.W. Costerton 165

Erratum 174

Number 3, March 1978

Notices 175

Sequential administration of cronolone and prostaglandin $F_{2\alpha}$ for estrus synchronization in goats

J.A. Serna, W.T.K. Bosu and C.A.V. Barker 177

Occurrence of a non-cellular suprazonary layer in embryos collected from prepuberal calves

Raymond W. Wright, Jr., Alfred R. Menino and W. Duane Mickelsen 187

Dystocia in cattle: A review and implications

T.D. Price and J.N. Wiltbank 195

Predicting dystocia in heifers

T.D. Price and J.N. Wiltbank 221

The culture of sheep embryos in either a bicarbonate-buffered medium or a phosphate-buffered medium enriched with serum

H.R. Tervit and Pamela G. Goold 251

The influence of ovulation number and ovarian dimensions on embryo production in superovulated cattle

Alfred R. Menino, Jr., and Raymond W. Wright, Jr. 259

Diagnosis of trichomoniasis in pregnant cows by culture of cervical-vaginal mucus

Bruce Abbitt and Les Ball 267

Testosterone levels in Dorset and Romney rams and the effectiveness of these breeds in stimulating early onset of estrus in Romney ewes

H.R. Tervit and A.J. Peterson 277

Studies of hormone secretion in Romney Rams: Luteinizing hormone, testisterone and prolactin plasma profiles, LH/testosterone interrelationships and the influence of seasons

P.R. Wilson and K.R. Lapwood 279

Effect of iodine on reproductive performance of female mink

R.J. Aulerich, R.K. Ringer and G.R. Hartsough 295

Number 4, April 1978

Notices 303

Effect of Glycerol concentration on frozen boar sperm

V.G. Pursel, L.L. Schulman and L.A. Johnson 305

Low temperature preservation of cattle blastocysts

H. Lehn-Jensen and T. Greve 313

Plasma progesterone levels as an early pregnancy test in beef cattle

T. Thirapatsukun, K.W. Entwistle and R.J.W. Gartner 323

The influence of dose and duration of estrogen treatment on corpus luteum regression in ewes

D.J. Bolt 333

Milk progesterone measurement in dairy cows: Correlation with estrus and pregnancy determination

M. Shemesh, N. Ayalon, E. Shalev, A. Nerya, H. Schindler and F. Milguir 343

Fertility of high-yielding dairy cows following superovulation and non-surgical recovery of embryos

Torben Grene and H. Lehn-Jensen 353

Ovarian and endocrine responses and reproductive performance following GnRH treatment in early postpartum dairy cows

D.J. Kesler, A. Garverick, R.S. Youngquist, R.G. Elmore and C.J. Bierschwal 363

THERIOGENOLOGY

Peripheral plasma levels of progesterone in goats treated with fluorogestone acetate and prostaglandin $F_{2\alpha}$ during the estrous cycle

W.T.K. Bosu, J. Serna and C.A.V. Barker 371

Number 5, May 1978

Notices 391

Nutritional influence on fertility in Israeli dairy herds with an average 305-day production per cow of 8000 Kg of fat-corrected milk

E. Mayer, G. Francos and M. Davidson 393

The hormonal and clinical response of gilts to delayed puberty to GnRH: A preliminary study

L.-E. Edqvist, S. Einarsson, I. Karlbom and S. Viring 401

Effects of prostaglandin on estrous cycles and blood progesterone levels of American Saddlebred mares

H.H. Olson, C.L. Hausler, D.Q. Jackson and R.D. Carr 409

Pituitary and gonadal secretory responses of rams following intravenous infusion or injection of graded doses of GnRH

P.R. Wilson and K.R. Lapwood 417

Reproductive studies of Brahman cattle. I. Behavioral effect of various dose levels of Estradiol-17β upon ovariectomized Brahman, Brahman X Hereford and Hereford Cows

R.C. Rhodes III and R.D. Randel 429

Reproductive studies of Brahman cattle. II. Luteinizing hormone patterns in ovariectomized Brahman and Hereford cows before and after injection of gonadotropin releasing hormone

J.L. Griffin and R.D. Randel 437

Effect of Fenbendazole on reproductive function in stallions

E.L. Squires, R.P. Amann, B.W. Pickett, W.E. Berndtson, R.K. Shideler and J.L. Voss 447

Detection of estrus and quality of semen produced by rams with deviated penises

P.J.H. Ball, T.F. Wilson and R.H. Foote 457

Survival of ram testicular spermatozoa in vitro: effects of glucose, glucose metabolites, rete testis fluid-proteins, selected androgens and phospholipids

Josef K. Voglmayr and Jitendra S. Gandhi 463

Number 6, June 1978

Notices 479

A survey of the incidence of prenatal mortality in cattle following pregnancy diagnosis by rectal palpation

Larry G. Paisley, W. Duane Mickelsen and O.L. Frost 481

Reproductive responses of beef heifers and cows to exogenous progesterone administered in silastic coils, oestradiol benzoate and pregnant mare serum gonadotropin

M. Petit, F. Deletang and M. Thibier 493

The relationship between narrow calcium-phosphorus ratio and reproductive problems in a dairy herd: A case report

R.L. Carson, A.B. Caudle and H.E. Riddle 505

Evaluation of a new progestin (Sa 45.249) in cattle

P. Mayer and E. Schütze 509

Abortion after $PGF_{2\alpha}$ in heifers with multiple pregnancies following superovulation with FSH and $PGF_{2\alpha}$

M. Kosugiyama, J.H. Britt and H.D. Hafs 523

The control of superovulation in the bovine with a PMSG-antiserum

D. Dhondt, R. Bouters, J. Spincemaille, M. Coryn and M. Vandeplassche 529
